RANGE

HARDWARE & FASTENERS

I BEAM HANGERS

Tuff I Beam Hangers are used in construction and designed to anchor wooden beams or joists. Primarily used in roofs, decking, floors and ceilings for the purpose of creating a strong, long lasting support.

- Galvanised steel 1.2mm thick G300 Z 275 for the full depth of the I-Joist
- Face mount connectors for I-Joist to timber beam support
- Designed to resist gravity loads and lateral movement of the I-Joist flanges
- Various sizes available to cover all common I-Joist
- Carton of 25pcs

Product Code	Description L x W (mm)
IBFS180X65	I beam face support for 200 x 63
IBFS190X45	I beam face support for 200 x 44/45
IBFS233X53	I beam face support for 240 x 51/53
IBFS233X70	I beam face support for 240 x 70
IBFS235X65	I beam face support for 240 x 63
IBFS235X90	I beam face support for 240 x 90
IBFS237X45	I beam face support for 240 x 45
IBFS238X42	I beam face support for 240 x 40
IBFS238X60	I beam face support for 240 x 58
IBFS285X70	I beam face support for 300 x 70
IBFS287X65	I beam face support for 300 x 63
IBFS290X60	I beam face support for 300 x 58
IBFS290X90	I beam face support for 300 x 90
IBFS293X53	I beam face support for 300 x 51/53
IBFS297X45	I beam face support for 300 x 45
IBFS299X42	I beam face support for 300 x 40
IBFS342X90	I beam face support for 360 x 90
IBFS345X65	I beam face support for 360 x 63
IBFS347X60	I beam face support for 360 x 58
IBFS351X53	I beam face support for 356 x 53
IBFS352X70	I beam face support for 356 x 70
IBFS355X45	I beam face support for 360 x 45
IBFS390X90	I beam face support for 400 x 90
IBFS397X60	I beam face support for 400 x 58
IBFS400X70	I beam face support for 406 x 70
