### S SERIES

Superwinch® introduces the latest in trailer winches; the new GEN III S Series™! Loads of innovation including new look, capacities, features with unbelievable benefits to the end user.

Superwinch® S5500 Trailer Winch pulls 5,500 lbs with a 3.6 HP permanent magnet motor driven through an all steel 3-Stage planetary gear box at 24 FPM.

Superwinch® S7500 Trailer Winch pulls 7,500 lbs with a 3.6 HP permanent magnet motor driven through an all steel 3-Stage planetary gear box at 16 FPM.

New machined aluminum free-spool lever can be operated with foot. Innovative 2-hole drum prevents wire rope from detaching from drum and AISI 1045 steel designed for the stress of synthetic rope.

Innovative "Roller Hawse" with stainless steel rollers, the best of both worlds – a Superwinch Exclusive. 304 stainless steel fasteners reduce corrosion and safety yellow tinted protective cover protects rope and drum. Covered by a Limited Lifetime Warranty/3 Year on Solenoid - Industry's Best.
